Subject: RE: dicamba meeting with states - tomorrow - 3 PM

Sandra – so on SLITs – and to my understanding - EPA is still in the process of accomplishing a system upgrade that would restore it's functionality. Right now – while it's still technically 'working' it is not reliable or fully functioning.

Deliberative Process / Ex. 5

Thanks, Dan. I took a look at the last set of questions Liza sent from the workgroup and there's one SLITS related question:

1. SLITS - There appears to be continued confusion regarding SLITS and if it is operational. One SLA just recently received a response to a SLITS inquiry that was made 2 years ago(?). Is it again operational?

A few weeks ago, we told the workgroup that SLITS is not yet fully functional but there are plans to get it back online. At least one state seems to have gotten a response, do we want to update our messaging?

Thanks,

Sandra O'Neill

Sandra – Dan Kenny and I have a conflict for tomorrow afternoon's meeting with the states on dicamba and cannot attend that. I'm not sure what the agenda is. Although we can't make it in person – maybe you can catch us beforehand to discuss something or help cover it. So track us down if you want to. Thanks, Dan
